### widgets on the page

|                           |                                                          |
|---------------------------|----------------------------------------------------------|
| <b>↑ ↓ ← →</b>            | Move through a widget's rows                             |
| <b>Enter</b>              | Do what clicking the row does                            |
| <b>Ctrl/Cmd + Enter</b>   | Open the address a row stands for in a new tab, where... |
| <b>Shift + F10 on row</b> | Menu for the row and its widget                          |

|                                   |                                                       |
|-----------------------------------|-------------------------------------------------------|
| <b>Shift + Home</b>               | Step from a widget row up to its header, where the... |
| <b>Enter / Space on header</b>    | Fold a widget                                         |
| <b>F2 on widget</b>               | Rename widget                                         |
| <b>Shift + W on widget</b>        | Widget across two columns                             |
| <b>Delete on widget</b>           | Close widget (Config → Widgets brings it back)        |
| <b>Long-press widget title</b>    | Rename it with the pointer, as on a category header   |
| <b>Ctrl/Cmd + Enter in a note</b> | Save a note                                           |
| <b>Escape in a note</b>           | Leave the note without saving the edit                |

## selecting several bookmarks

|                      |                                                           |
|----------------------|-----------------------------------------------------------|
| <b>x</b>             | Tick bookmark and advance                                 |
| <b>X</b>             | Tick whole category                                       |
| <b>Shift + ↑ / ↓</b> | Extend the selection a row at a time                      |
| <b>Ctrl/Cmd + A</b>  | Tick every bookmark currently on screen                   |
| <b>Alt + click</b>   | Add or remove a single bookmark with the mouse            |
| <b>Shift + click</b> | Extend the selection to the clicked bookmark              |
| <b>Click</b>         | With a selection open, a plain click clears it instead... |
| <b>Esc</b>           | Clear the selection                                       |
| <b>Delete</b>        | Delete everything selected                                |

## bookmarks view

|                                  |                                                            |
|----------------------------------|------------------------------------------------------------|
| <b>j / k</b>                     | Move through the list                                      |
| <b>Enter / o</b>                 | Open the bookmark under the cursor                         |
| <b>i</b>                         | Open or close the side panel                               |
| <b>1 / 2 / 3 • [ / ]</b>         | Details, Health or Usage in the side panel                 |
| <b>e / Shift + E</b>             | Edit in the side panel / in the full dialog                |
| <b>x / Shift + X</b>             | Select a row / a range of rows                             |
| <b>d</b>                         | Delete the bookmark (undo is offered)                      |
| <b>g / G</b>                     | First / last row                                           |
| <b>/</b>                         | Search the list                                            |
| <b>f</b>                         | Work through the list one bookmark at a time               |
| <b>h</b>                         | Collection health: score, what is wrong, monitors and...   |
| <b>Shift + H (on a row)</b>      | That bookmark's health in large: uptime, response time,... |
| <b>← / → • / - • 0 (a chart)</b> | A chart: walk, zoom, whole range                           |
| <b>p</b>                         | Re-check the bookmark now                                  |
| <b>s / c</b>                     | Its score / its checking, in the Health tab                |
| <b>n / z</b>                     | Ignore / snooze what the report says about it              |
| <b>m</b>                         | The row menu                                               |
| <b>Shift + R</b>                 | Refresh the health report                                  |
| <b>Shift + P / Shift + C</b>     | Pages and categories: drag pages, move and merge...        |
| <b>Esc</b>                       | Clear the selection, close the panel, then leave the...    |

## inbox view

|                  |                                                    |
|------------------|----------------------------------------------------|
| <b>j / k</b>     | Move between rows (↑ / ↓ work too)                 |
| <b>Enter</b>     | Show the selected link's details in the side panel |
| <b>o / Space</b> | Open the selected item                             |

|                           |                                                  |
|---------------------------|--------------------------------------------------|
