| <b>G</b> + <b>P</b>                    | Jump to first pinned bookmark on the page          |
| <b>Enter</b> / <b>Space</b>            | Open focused bookmark                              |
| <b>Shift</b> + <b>F</b>                | Filter the page you are on in place                |
| <b>Esc</b>                             | Clear selection / close overlay                    |

### layout (side rail)

|                          |                                               |
|--------------------------|-----------------------------------------------|
| <b>Tab</b>               | Toolbar is first in tab order                 |
| <b>←</b> / <b>→</b>      | Scroll page tabs horizontally when many pages |
| <b>:buttonbar bottom</b> | Return button bar to bottom                   |

### bookmarks

|                                                 |                                                       |
|-------------------------------------------------|-------------------------------------------------------|
| <b>&amp;</b>                                    | Quick-add – type name   url   shortcut in one line    |
| <b>Ctrl</b> + <b>V</b>                          | Paste a URL to open the new-bookmark modal pre-filled |
| <b>+</b>                                        | Open full new-bookmark modal on the dashboard         |
| <b>Shift</b> + <b>B</b>                         | Open full new-bookmark modal from anywhere            |
| <b>Ctrl</b> + <b>Shift</b> + <b>A</b>           | Open full new-bookmark modal from anywhere            |
| <b>Shift</b> + <b>E</b>                         | Inline-edit focused bookmark                          |
| <b>Shift</b> + <b>M</b>                         | Quick-move focused bookmark                           |
| <b>Shift</b> + <b>D</b>                         | Quick-delete focused bookmark                         |
| <b>Shift</b> + <b>T</b>                         | Quick-tag focused bookmark                            |
| <b>Shift</b> + <b>C</b>                         | Availability checking for focused bookmark            |
| <b>Shift</b> + <b>P</b>                         | Pin or unpin the focused bookmark                     |
| <b>Ctrl/Cmd</b> + <b>Enter</b>                  | Open the focused bookmark                             |
| <b>Alt</b> + <b>↑</b> / <b>↓</b>                | Move the focused bookmark within its category         |
| <b>Shift</b> + <b>Alt</b> + <b>←</b> / <b>→</b> | Move bookmark to the next category                    |
| <b>Alt</b> + <b>←</b> / <b>→ on category</b>    | Move category                                         |
| <b>F2 on category</b>                           | Rename the focused category header                    |
| <b>Shift</b> + <b>W</b>                         | Spread category across columns                        |
| <b>Shift</b> + <b>F10 on category</b>           | Open the category menu                                |
| <b>Delete on category</b>                       | Delete the focused category                           |
| <b>Shift</b> + <b>L</b>                         | Share the focused bookmark                            |
| <b>Shift</b> + <b>R</b>                         | Open the focused bookmark on its own row in Health    |
| <b>t</b>                                        | Filter the grid to the focused bookmark's tag         |
| <b>Ctrl</b> + <b>C</b>                          | Copy URL of focused bookmark                          |
| <b>Shift</b> + <b>V</b>                         | Toggle hover preview card on focused bookmark         |
| <b>Enter on "N more"</b>                        | Expand or collapse a long category                    |

|                                      |                                                            |
|--------------------------------------|------------------------------------------------------------|
| <b>Delete</b>                        | Delete focused bookmark                                    |
| <b>Right-click bookmark</b>          | Row menu: open, copy, edit, tags, move, delete             |
| <b>Double-click page tab</b>         | Rename page tab                                            |
| <b>Long-press category (~500 ms)</b> | Long-press category header (~500 ms) to rename             |
| <b>Right-click category</b>          | Right-click a category header to rename, add, or delete... |
| <b>Drag left strip</b>               | Reorder a bookmark within or across categories             |
| <b>Drag // in category title</b>     | Reorder categories (grab the // prefix in the header)      |

## selecting several bookmarks

|                                    |                                                           |
|------------------------------------|-----------------------------------------------------------|
| <b>x</b>                           | Tick bookmark and advance                                 |
| <b>X</b>                           | Tick whole category                                       |
| <b>Shift</b> + <b>↑</b> / <b>↓</b> | Extend the selection a row at a time                      |
| <b>Ctrl/Cmd</b> + <b>A</b>         | Tick every bookmark currently on screen                   |
| <b>Ctrl/Cmd</b> + <b>click</b>     | Add or remove a single bookmark with the mouse            |
| <b>Shift</b> + <b>click</b>        | Extend the selection to the clicked bookmark              |
| <b>Click</b>                       | With a selection open, a plain click clears it instead... |
| <b>Esc</b>                         | Clear the selection                                       |
| <b>Delete</b>                      | Delete everything selected                                |

## health view

|                                                |                                                      |
|------------------------------------------------|------------------------------------------------------|
| <b>j</b> / <b>k</b>                            | Move between rows (↑ / ↓ work too)                   |
| <b>s</b>                                       | Unfold the score breakdown for the selected row      |
| <b>i</b>                                       | Open uptime statistics for the selected row          |
| <b>p</b>                                       | Re-check the selected bookmark now                   |
| <b>f</b>                                       | Work through the list one row at a time              |
| <b>R</b> / <b>?</b>                            | Refresh the cached health report                     |
| <b>c</b>                                       | Change availability checking                         |
| <b>m</b>                                       | Row menu – redirect, title, favicon, archive, delete |
| <b>x</b>                                       | Tick the focused row for a bulk action               |
| <b>Enter</b> / <b>Space</b>                    | Open the selected bookmark                           |
| <b>g</b> / <b>G</b> / <b>Home</b> / <b>End</b> | Jump to the first / last row                         |
| <b>Esc</b>                                     | Close a menu, or leave the view                      |

## selecting several health

## rows

|                                |                                                |
|--------------------------------|------------------------------------------------|
| <b>x</b>                       | Tick the focused row and move to the next      |
| <b>X</b>                       | Tick every row the current filter shows        |
| <b>Ctrl/Cmd</b> + <b>A</b>     | Tick every row the current filter shows        |
| <b>Ctrl/Cmd</b> + <b>click</b> | Add or remove a single row with the mouse      |
| <b>Shift</b> + <b>click</b>    | Extend the selection to the clicked row        |
| <b>Click</b>                   | With a selection open, a plain click clears it |
| <b>Esc</b>                     | Clear the selection                            |

## inbox view

|                                                |                                                  |
|------------------------------------------------|--------------------------------------------------|
| <b>j</b> / <b>k</b>                            | Move between rows (↑ / ↓ work too)               |
| <b>Enter</b> / <b>Space</b>                    | Open the selected item                           |
| <b>p</b>                                       | Promote to a full bookmark                       |
| <b>n</b>                                       | Add or edit a note                               |
| <b>r</b>                                       | Mark as read                                     |
| <b>z</b>                                       | Snooze until later                               |
| <b>x</b>                                       | Toggle row selection for bulk actions            |
| <b>Shift</b> + <b>↑</b> / <b>↓</b>             | Extend the selection to the next or previous row |
| <b>Ctrl/Cmd</b> + <b>A</b>                     | Select every link currently shown                |
| <b>d</b>                                       | Delete the selected item                         |
| <b>R</b>                                       | Reload the list from the server                  |
| <b>g</b> / <b>G</b> / <b>Home</b> / <b>End</b> | Jump to the first / last row                     |
| <b>t</b>                                       | Open triage – walk the list one item at a time   |
| <b>Esc</b>                                     | Clear selection, or return to bookmarks          |

## inbox triage

|                         |                                  |
|-------------------------|----------------------------------|
| <b>j</b> / <b>k</b>     | Move to the previous / next item |
| <b>o</b> / <b>Enter</b> | Open the current item            |
| <b>p</b>                | Promote to a full bookmark       |
| <b>r</b> / <b>Space</b> | Keep and mark as read            |
| <b>z</b>                | Snooze until later               |
| <b>n</b>                | Add or edit a note               |
| <b>d</b>                | Remove the current item          |
| <b>Esc</b>              | Close triage                     |

## config view

|                                    |                                                        |
|------------------------------------|--------------------------------------------------------|
| <b>0-9</b>                         | Switch to Inbox (0) or a bookmark page                 |
| <b>j</b> / <b>k</b>                | Previous / next section                                |
| <b>g</b> / <b>G</b>                | Jump to the first / last section                       |
| <b>←</b> / <b>→</b> (section rail) | Move between sections when the section rail is focused |

|                                              |                                                         |
|----------------------------------------------|---------------------------------------------------------|
| <b>Alt</b> + <b>←</b> / <b>→</b>             | Previous / next sub-tab in the current section          |
| <b>[</b> / <b>]</b>                          | Previous / next sub-tab                                 |
| <b>←</b> / <b>→ (sub-tabs)</b>               | Move between sub-tabs when a sub-tab strip is focused   |
| <b>←</b> / <b>→ (choice row)</b>             | Move between options in a choice group                  |
| <b>Home</b> / <b>End (slider)</b>            | Jump to min or max on a focused opacity or intensity... |
| <b>↑</b> / <b>↓ (Pages &amp; tags lists)</b> | Move between rows when focus is in the list panel       |
| <b>Enter</b> / <b>Space (list row)</b>       | Focus the first field in the selected list row          |
| <b>g</b> / <b>G (list row)</b>               | Jump to the first / last row in a Pages & tags list     |
| <b>/ (Tags tab)</b>                          | Focus the tag filter while on the Tags sub-tab          |
| <b>j</b> / <b>k (Bookmarks list)</b>         | Move between bookmark rows when focus is in the list... |
| <b>Enter</b> / <b>Space (bookmark row)</b>   | Open the inline editor for the selected bookmark        |
| <b>g</b> / <b>G (Bookmarks list)</b>         | Jump to the first / last bookmark row                   |
| <b>/ (Bookmarks)</b>                         | Focus the bookmark search field                         |
| <b>Ctrl/Cmd</b> + <b>Shift</b> + <b>K</b>    | Find a setting                                          |
| <b>Shift</b> + <b>S</b> / <b>&lt;</b>        | Return to dashboard                                     |
| <b>Esc</b>                                   | Close editor or exit config                             |

## search modes

|                                |                                                        |
|--------------------------------|--------------------------------------------------------|
| <b>type</b>                    | Type to filter the list                                |
| <b>Enter</b>                   | Open the top result                                    |
| <b>&gt;</b>                    | Search                                                 |
| <b>/</b>                       | Open tag word cloud (desktop)                          |
| <b>@</b>                       | Global search                                          |
| <b>:</b>                       | Commands                                               |
| <b>?</b>                       | Finders                                                |
| <b>*</b>                       | Recent bookmarks                                       |
| <b>mode chips</b>              | Click › search › : commands › ? finders to switch mode |
| <b>←</b> / <b>→ (chip row)</b> | Empty overlay                                          |

|                                                                |                                                          |
|----------------------------------------------------------------|----------------------------------------------------------|
| <b>category:</b> / <b>tag:</b> / <b>page:</b> / <b>status:</b> | Filter results by field directly in the search bar       |
