KEYBOARD SHORTCUTS

Press **!** or **F1** on the dashboard for the searchable live list (also **Config → Help → Keyboard**). **:cheat** and **:help** open the same modal. This printable sheet is generated from the same source.

navigation

1-9	Switch to bookmark page
Shift + I	Open Inbox – links saved to read later
Shift + H	Open Health – bookmarks that need attention
Shift + S	Open config – settings, pages, and bookmarks
Shift + ← / →	Previous / next page
,	Page overview with bookmark counts
! / F1	This cheat sheet
↑ ↓ ← →	Move focus up / down through bookmarks
Enter / Space	Open focused bookmark
Esc	Clear selection / close overlay; undo unsaved drag reorder

bookmarks

Shift + P	Pin or unpin the focused bookmark
Ctrl / Cmd + Enter	Open the focused bookmark in a new tab, whatever the open-in-new-tab setting says
Shift + S	Share the focused bookmark, or copy its name and URL where no share sheet exists
Shift + R	Open the focused bookmark on its own row in Health
t	Filter the grid to the focused bookmark's tag; several tags open the picker

selecting several bookmarks

x	Tick the focused bookmark and move to the next – so a run of rows is x-x-x
X	Tick every bookmark in the focused category

health view

j / k	Move between rows (↑ / ↓ work too)
s	Unfold the score breakdown for the selected row
i	Open uptime statistics for the selected row
p	Re-check the selected bookmark now
f	Work through the filtered list one bookmark at a time, starting at the selected row

R / ?	Refresh the cached health report
c	Change availability checking – off, periodic or monitor
m	Row menu – redirect, title, favicon, archive, delete
x	Tick the focused row for a bulk action
Enter / Space	Open the selected bookmark
g / G / Home / End	Jump to the first / last row
Esc	Close a menu, or leave the view

inbox view

j / k	Move between rows (↑ / ↓ work too)
Enter / Space	Open the selected item
p	Promote to a full bookmark
n	Add or edit a note
r	Mark as read
z	Snooze until later
x	Toggle row selection for bulk actions
Shift + ↑ / ↓	Extend the selection to the next or previous row
Ctrl / Cmd + A	Select every link currently shown
d	Delete the selected item
R	Reload the list from the server
g / G / Home / End	Jump to the first / last row
t	Open triage – walk the list one item at a time
Esc	Clear selection, or return to bookmarks

inbox triage

j / k	Move to the previous / next item
o / Enter	Open the current item
p	Promote to a full bookmark
r / Space	Keep and mark as read
z	Snooze until later
n	Add or edit a note
d	Remove the current item
